Instructions

1. Tape top of template to wall
2. Use level to properly align template
3. Tape bottom of template to wall
   Note: template must be flat against wall!

If mounting to drywall:

1. Drill holes for top and bottom mounting bracket using XX in./XX mm drill bit
2. Remove template
3. Insert drywall anchors into holes
4. Attach mounting brackets using screws

If mounting to wood wall reinforcement (stud):

1. Drill pilot holes for top mounting bracket using XX in./XX mm drill bit
2. Drill pilot holes for three vertical holes on bottom mounting bracket using XX in./XX mm drill bit
3. Remove template
4. Attach mounting brackets using screws

Consult User Guide to determine optimal placement of receiver
